Natural Welcome to Southeastern
Workers with the Manhattan Construction Company, began construction on the new Student Union in May 2005 after the old Visual Arts Building was demolished. These photos were taken in June 2005, during early construction for the Union.
As construction advanced, the new Student Union started to take form.

Once the steel structure was almost done on the Student Union, students had the chance to sign the last beam and add their signature to the new building.
Almost there...

Out and about campus
This book is dedicated to Dr. Glen D. Johnson and Dr. Jesse Snowden for their contributions to Southeastern Oklahoma State University. While serving his 9 1/2-year term as president, Johnson made a big impact on Southeastern's growth. He helped get funding for the new Student Union and paved the way for other building projects on campus. After Johnson's departure, Snowden was chosen as the interim president. He is continuing Johnson's work and has served the university well in this transition period. The university has benefited greatly because of these two men.
Letter of Thanks

I would like to say a special thanks to the university for allowing us to have a yearbook and to everyone who helped make this yearbook possible, especially Dan Hoke, Dan Moore and Trey Reed. It was quite a daunting task to produce the first hardbound yearbook in five years, but our staff members, photographers and contributors made this yearbook a reality.

I also would like to say a huge thanks to Ray Gaskin, newspaper and yearbook adviser, and Karen Maple, managing editor of The Southeastern. When things got tough and photos seemed sparse, they found countless CDs and files, downloaded the photos, designed pages and stayed with me until the yearbook was completely finished.

I also want to thank my sister Robyn, a December graduate, for coming up on a Saturday (when she could have slept in) and helping me for nearly 10 hours. It was so thoughtful of her to give of her time and assist me in my efforts.

I would also like to thank all the organizations and individuals that sent me photos. Without them, we wouldn't have had a very lively yearbook.

Thank you again to everyone, including faculty and staff, for making this yearbook possible. I hope this yearbook will remind you of all the changes our university has gone through over the past couple years and all the changes we could see in the future.

Sincerely,

Jamie Carrick
