

# Math 2283 - Introduction to Logic

Quiz #11 - 2012.09.24

Solutions

---

1. What does  $x \in K$  mean?

This statement is  $x$  is an element of  $K$ , or  $x$  belongs to the class  $K$ .

2. Interpret the relation  $K \subset L$ .

This can be read as:  $K$  is a subclass of  $L$ .
