

Physics 1214 - General Physics II

Quiz #27 - 2013.04.17

Solutions

1. What is laser an acronym for?

Light amplification by stimulated emission of radiation.

2. Does the Bohr model of the hydrogen atom extend to atoms with more than one electron when trying to predict energy levels?

No, De Broglie came up with the idea that $\lambda = h/p$ should hold for all particles.
