Discussion Board Week 3 - Due 2017.06.25

For each of the following pairs of points, perform the following:

- Find the slope of the line passing through the two points.
- Find the point-slope form of the line passing through the two points.
- Find the y-intercept of the line passing through the two points.
- Find the slope-intercept form of the line passing through the two points.

Do NOT use decimals at any point in this week's problem.
