

Math 1513 - College Algebra

Discussion Board Week 16 - Due 2018.05.11

It is final exam time! This week, post some topics you are having issues with, and include a problem or two. Then, solve a problem that someone else is having a hard time with. Hopefully, someone will do the same for you in a timely manner. Remember, the semester ends on Friday at midnight, so do not delay.
