Written Assignment 2 - Due 2020.01.26

Directions: Please answer the following question in complete sentences and show ALL work. Be sure to label all geometric objects in any illustrations. I will accept an answer in a scanned image format, as a pdf, or sent from your awesome picture phone. Do **NOT** submit work in Microsoft Word document format. Be sure to submit your work through BlackBoard.

Question: The absolute value of a complex number $z = a + bi$, denoted $|z|$, is given by the formula

$$|z| = \sqrt{a^2 + b^2}$$

Find six distinct complex numbers (which are neither purely imaginary nor purely real) such that each has an absolute value of 7.
