Everything

When you go to our website, the search window will highlight the *Everything* choice, which looks a bit like our library columns. You can type key words, an author's name, or a title into the search window and click 'Go'. This search will result in every type of available material such as books, eBooks, and articles.

Books

If you choose the *Books* icon, it will search for both print and eBooks. You can type in a topic, author, or title.

Articles

The next choice available is the *Articles* search icon. Typing a topic in the search bar under this option will go to the available articles, without having to sift through particular databases.

Custom Year Range:

Choose between print books and eBooks by using the *Format* option

Choose a specific date range

Each of these types of searches will give you a results page. You might get several hundred thousand results and you will need to narrow this down to have a successful search.

You will have the option to refine results on the *Search Tools* menu on the left side of your results page.

It looks a lot like the tools menu on the EBSCO results page that we have had before.

Choosing *Libraries Worldwide* will get the best database search results by including all of the databases available for search. The system will default to this setting.

You can choose full text, limit to peer reviewed materials, and choose a date range.

Clicking on the *Databases* icon will take you to a web page with a list of specific databases.

[Advanced Search](#) will take you to a search screen like this, where you can enter more key terms, a title, subject or author.

The screenshot shows the "Advanced Search" interface. It features two search rows. The first row has "Search Index" set to "Keyword" and "Search Term" as an empty input field. The second row has "Operator" set to "AND", "Search Index" set to "Title", and "Search Term" as an empty input field. Below the rows are buttons for "Add row", "Clear", and "Search". To the left of the search fields, there is a section titled "Search Tools" with checkboxes for "Only return peer-reviewed articles" (unchecked) and "Group related editions" (checked). A yellow pencil icon is overlaid on the search interface.

### Advanced Search

The screenshot shows the "Advanced Search" interface with the "Search Tools" section visible. It includes checkboxes for "Only return peer-reviewed articles" (unchecked) and "Group related editions" (checked). There are dropdown menus for "Format" (set to "All Formats"), "Year" (with fields for start year "e.g. 2010" and end year "Optional"), "Language" (set to "All Languages"), "Audience" (set to "Any Audience"), and "Content" (set to "Any Content"). A yellow pencil icon is overlaid on the search interface.

On the left you can narrow down the date range of your results, select peer reviewed articles, and choose the format of sources.

*Journals A-Z* is the icon you use if you have a citation, possibly one from a course reading list or from a bibliography. Clicking on it will bring up a screen with the alphabet, where you choose the letter that the journal title begins with. You can also click the Search tab and type the name of the journal. In the results, simply click on a title to see what coverage we have.

The screenshot shows the "Journals A-Z" search interface. At the top, there is a search bar with the placeholder "Search" and a "Browse" button. Below the search bar is a navigation bar with "Browse:" followed by "Collections" and "Journals" buttons. A red arrow points to the "Search" button. At the bottom, there is a grid of letters from A to Z, with "A" highlighted in blue. A small note at the bottom left says "#Tear: Revista de Educação, Ciência e Tecnologia".

The screenshot shows a detailed view of a journal record. On the left, there is a sidebar with "INFO" and "VIEW FULL TEXT" buttons. The main content area starts with "About Campus" and "eJournal/eMagazine". It shows the ISSN: 1086-4822 and a "Full text availability for this item" link, which is circled in red. Below this, it says "Full Text Available" and provides details about the journal: "Journal: About Campus", "Collection: Academic Search Complete", and "Coverage: 1997-01-01~12 months ago". A large red arrow points to the "Full text availability for this item" link. At the bottom right, there is a "Report a broken link" button.

Above is a *Search Results* page.

If you are on campus you can access materials without signing in.

However,

to the right of each article there are options to get the citation, link, send the item in an email, or save it to a reading list.

If you want to save articles please sign in by clicking “*Sign In*” on the upper right corner of the screen. If you do not sign in before saving articles, the articles will only be saved temporarily.

**Sign In**

Choose one of the following:

**SE Student, Staff, and Faculty Login**

**Public Users Login**

Remember my choice

After clicking the “*Sign In*” button, choose the “SE Student, Staff, and Faculty Login.”. Then sign in with your student email and Blackboard password (see on following page).

Sign in with your student email and your Blackboard password.

The sign in screen below is also the screen that will pop up  
when accessing databases from off campus.

Sign in with your organizational account

jdoe79@student.se.edu

Blackboard password

If you click on a title on the search results page, a window opens up to the right, giving more details about the item. If the library owns it, it will be available for access. Click “View Full Text” or “Access Journal” to read or download.

If the library does not own it, you can choose the option in yellow, “Request Item through Interlibrary Loan.”

Click the link, fill in contact information, including your SE email address and the Interlibrary Loan Specialist will get a notice that you need that item. It takes some time to get things from other libraries, depending on how quickly they send it. If you have waited until the last minute to request an item, you should look for one that is currently available.

[Check for Electronic Resources](#)

This will go to a form to fill out. It is a free service.

Course Reserves

The Library has several textbooks and other course materials on reserve at the circulation desk. These can be checked out for 2 hours, but must stay inside the library. While we strive to have a copy of every textbook, some may not be available. To see if your course materials are available for check out, click on the *Course Reserves* icon and enter the course number or instructor's name.
