## SOSU Written Driving Test

1. You are planning to make a left turn across an intersection and you are waiting in the middle of the intersection for a break in the oncoming traffic. Which direction should your tires be turned?
  - a. To the left
  - b. It depends upon the sharpness of the turn
  - c. Straight ahead
  - d. To the right
  
2. You want to change lanes. How can you see if another vehicle is in your blind spot?
  - a. You check your rear view mirror
  - b. You check your side view mirror
  - c. You check both mirrors
  - d. You lean forward, turn and glance over your shoulder
  
3. The best response to a Roadwork Ahead sign is to:
  - a. Continue driving at the posted speed limit and look for the roadwork
  - b. Look for the roadwork
  - c. Slow down and look for the roadwork
  - d. Brake and be prepared to stop

4. If you take medication before driving, the most important thing for you to do is:
- Have another person ride with you
  - Be sure to eat a light meal
  - Plan on making several rest stops along the way
  - Find out the effects of the medication and adjust your driving accordingly
5. When backing up, it is usually best to:
- Open the door and look back
  - Steer with one hand, while looking into the rear view mirror
  - Use a spotter, use both outside mirrors
  - Steer with both hands while looking in the rear view mirror
6. The following can increase driving risk; vehicle's speed, headphones, cellular phones, passengers, animals, smoking, tire pressure.
- True
  - False
7. The higher the speed, the greater the chance the vehicle will skid or rollover on a turn.
- True
  - False
8. To prevent rollover, drive cautiously on rural roads. Be particularly cautious on curved rural roads and slow down.
- True
  - False
9. Passengers can simply reduce the risk of being killed or seriously injured in a van rollover by using their seat belts.
- True
  - False
10. Three major situations can lead to a rollover in a 15-passenger van; van goes off a rural road, the driver is fatigued or driving too fast for road conditions, driver over-corrects the steering as a panic reaction.
- True
  - False
11. Because the 15-passenger van is substantially longer and wider, it does not require additional braking time.
- True
  - False
12. The measure to be used by the driver of a 15-passenger van who is following a vehicle under good road conditions is:
- (1) car length for every ten miles per hour you are traveling
  - (2) second rule, following distance
  - (4) second rule, following distance, more at night
  - (10) feet for every ten miles per hour you are traveling

13. You must always yield:
- When entering or crossing highway without traffic signs or signals
  - At intersections with yield signs
  - To pedestrians in crosswalks
  - When make left turns
  - All of the above
14. Stopping distance depends on:
- Your own reaction time
  - The weight of the vehicle
  - The type and condition of tires and brakes
  - Weather and road conditions
  - All of the above
15. When passing another vehicle, it is permitted to exceed the posted speed limit.
- True
  - False
16. How many people does the National Transportation Safety Board suggest and the SOSU Safety Policy allow to be carried in the 15 passenger vans including driver?
- 12
  - 10
  - 15
  - None of the above
17. SOSU Safety Policy requires you to travel 5 mph below posted speed limits on highways.
- True
  - False
18. SOSU Safety Policy requires you to perform an inspection on the vehicles before leaving the University lot.
- True
  - False
