Library Annual Summary Report

2022-2023

The library has migrated all existing materials from Blackboard to Canvas. We will continue to maintain a robust presence in Canvas as we did in Blackboard. In addition to online interactive tutorials for library instruction and assessment materials for College Success classes, as well as tutorials for the Online Master's program, we began beta testing a library tutorial badge (PILLAR: Portal of Instruction on Learning Library Academic Resources). This badge is optional unless required by the instructor.

Lib Guides continue to play an important role in the library's instruction program. They are primarily designed for a specific class, but we do have general interest guides as well. 80 LibGuides were viewed with a total of 12,292 views. Last years statistics were 68 libguides viewed for a total of 9,360 views. That is an increase of 17.65% and 31.32% respectively.

We are in the process of rebuilding our face 2 face instruction program. Instructors who regularly scheduled library instruction were lost, due to attrition and the library lost half of their librarians at that time, as well. In 2019, we launched an Embedded Librarian program for our online classes. This service can range from being a contact point in the students Canvas class to Online instruction via Zoom, tutorials and LibGuides. It was a tremendous success from the beginning. The librarian who launched the program left in August 2021. As a result, our numbers plummeted. She was re-hired in January 2023 and is in the process of rebuilding that program. In May 2022, I hired a Student Success Librarian whose main focus will be Freshman students with an emphasis on first generation students.

Student Behavior Tracking 2022-2023

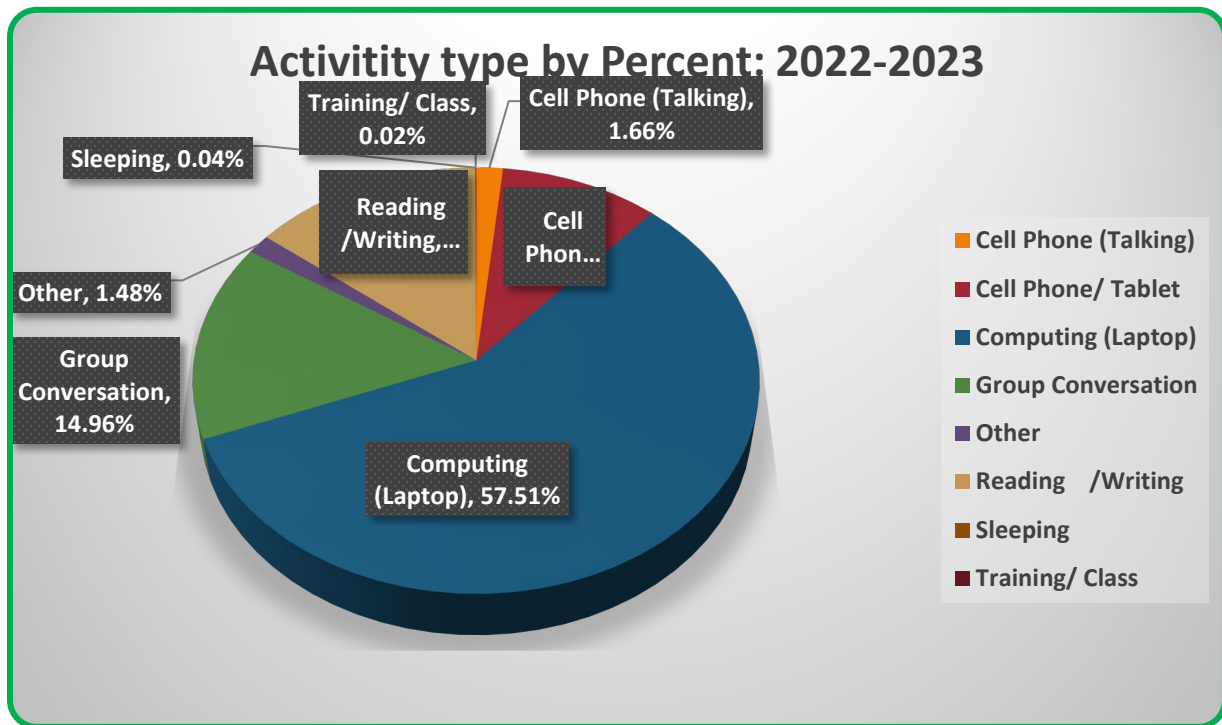

The following behaviors are tracked at the same time as floor count:

- Cell phone (Talking)
- Cell Phone/Tablet
- Computing/Laptop
- Group Conversation
- Reading/Writing
- Sleeping
- Training/Class
- Other -- any activity not covered by the above activities

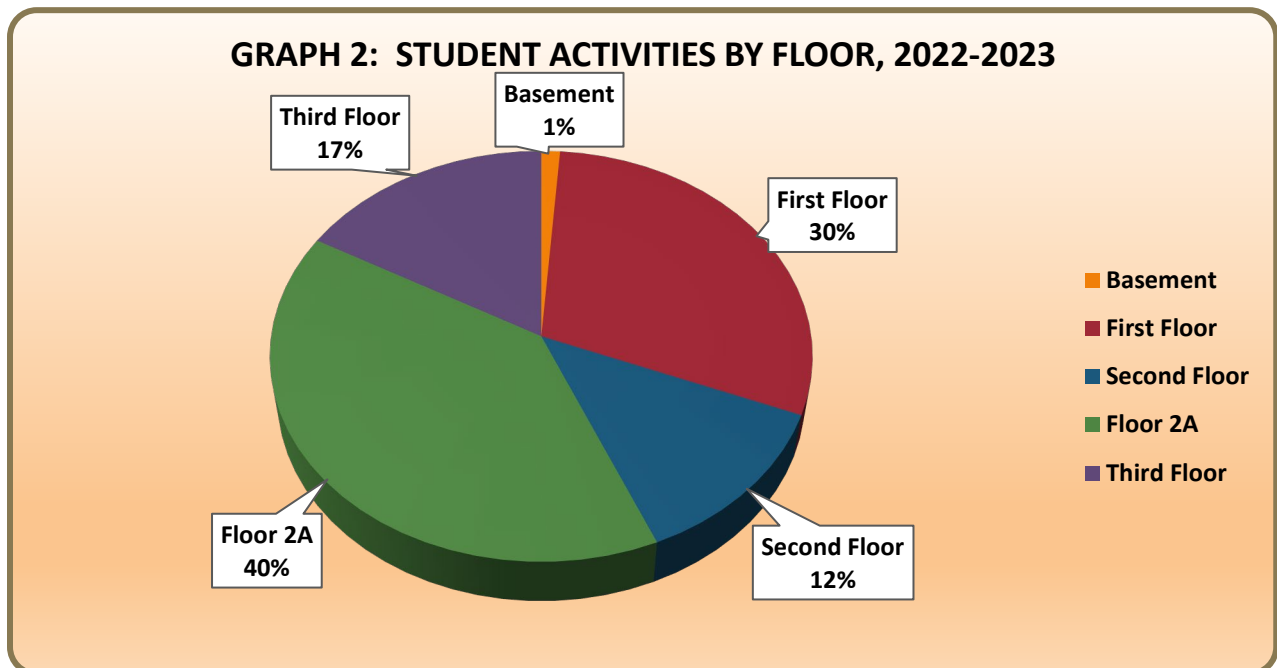

Graph 1 indicates that the primary activity for students continues to be Computing (Laptop) followed by Group Conversation and Reading/Writing

- 57.51% Computing/Laptop
- 14.96% Group Conversation
- 14.36% Reading/Writing
- 9.95% Cell Phone/Tablet
- 1.66% Cell phone (Talking)
- 1.48% Other
- .04% Sleeping
- .02% Training/Class

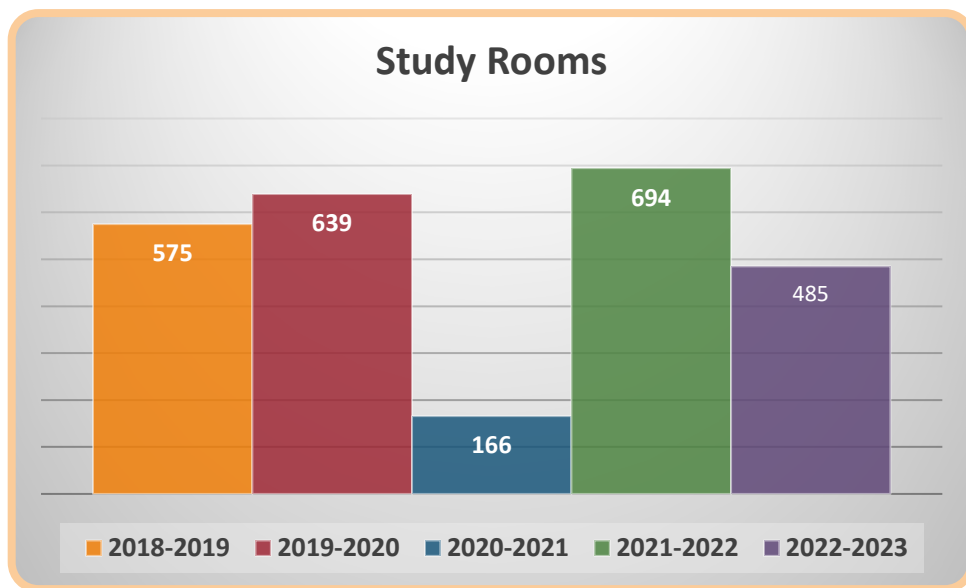

Graph 2 indicates Floor 2A and the First floor have the most activity. The highest activity on all floors, except the basement, was Computing (Laptop). Other was the highest activity in the basement, 42%.

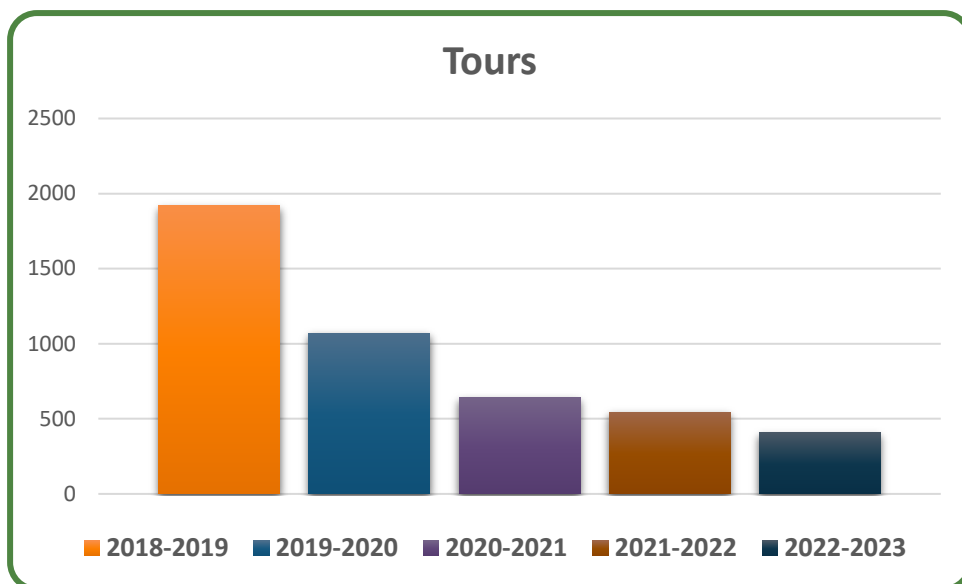

Conclusions and Observations

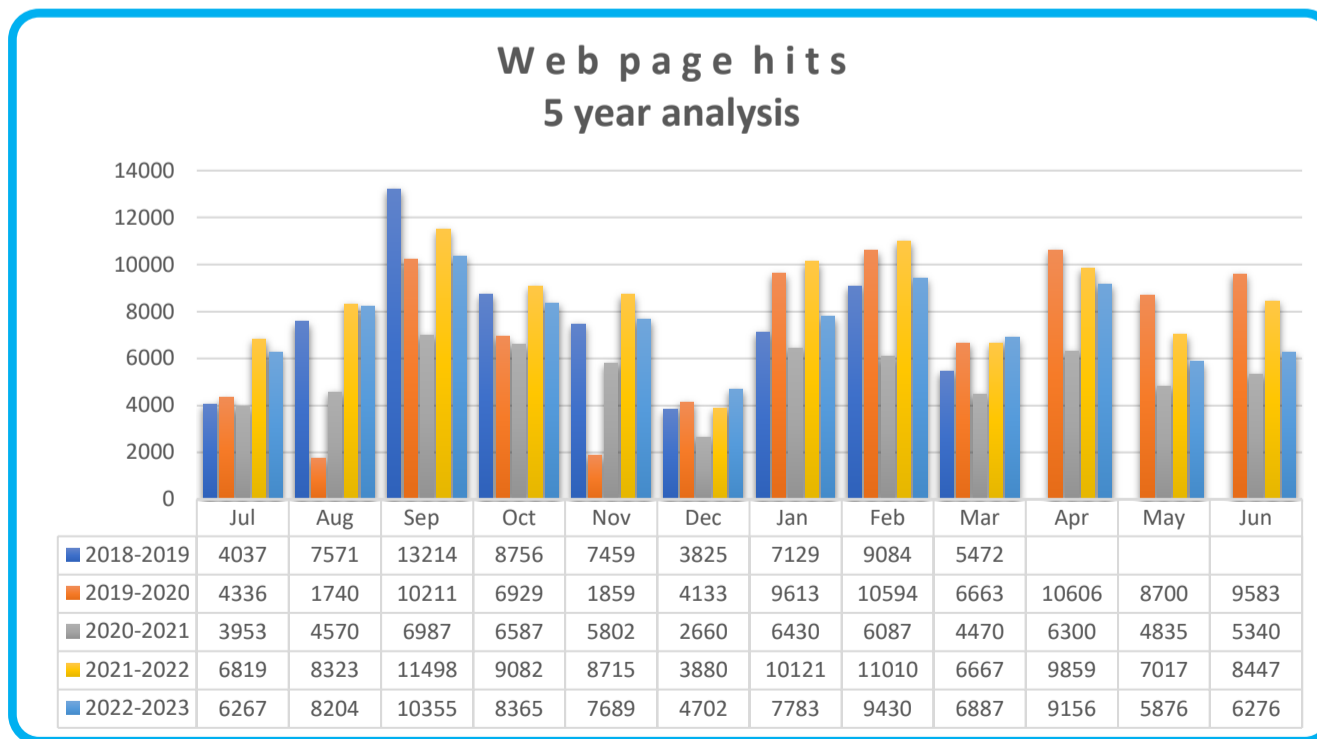

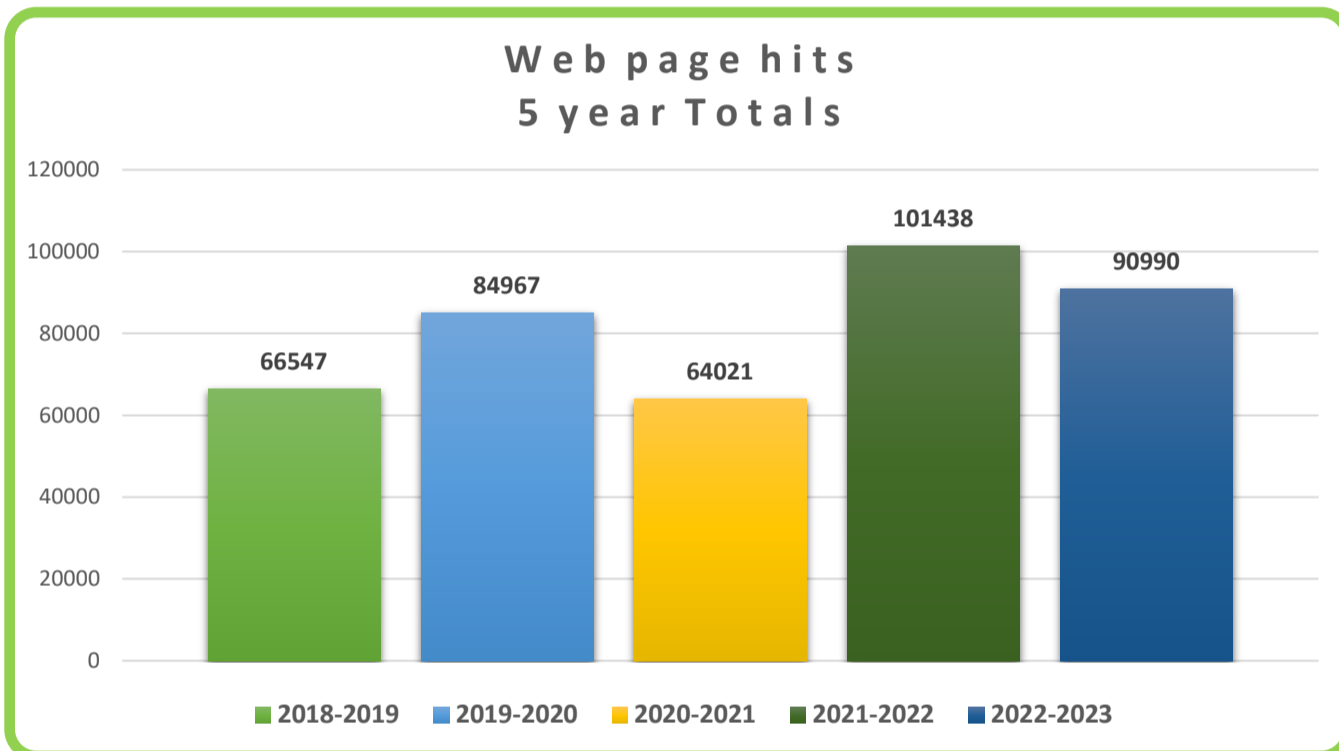

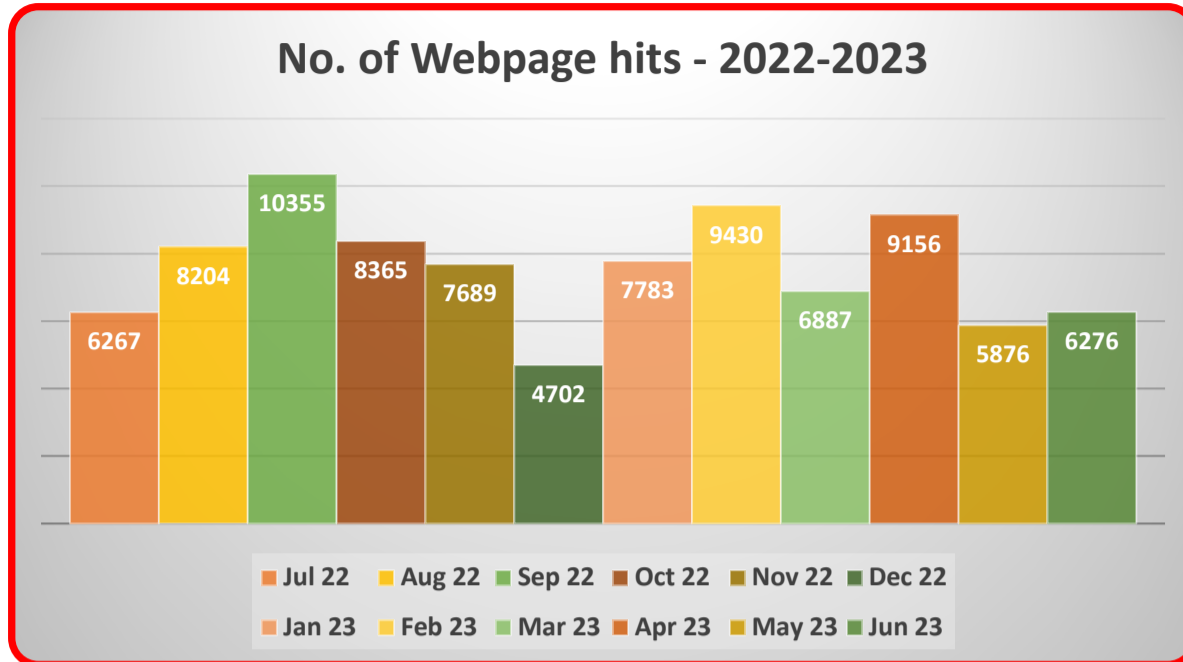

1. Floor 2A has the most activity (40%). This may be due to a greater number of computing, reading, and collaborating areas. 55.85% of the activity is Computing (Laptop), 19.38% is Group Conversation, 13.45% is Cell phone (Tablet usage), and 9.08% of the activity is Reading/ Writing.
2. Student Technology Room usage had a 30% decrease. 2020-2021's decline in usage was due to Covid-19.
3. Activities on all floors remain consistent.

4. In 2018, we began tracking the number of Tours offered. There has been a steady decrease in the number of tours. This could be due to the fact that many times the tours are conducted outside the library; therefore, there is no usage noted.
